

Your Roadmap to Hybrid Working

daisy.

COMMUNICATIONS

1

Cloud

Losing data could spell catastrophe for your business so make sure you protect yourself with cloud backup plans and give yourself peace of mind should any deletions, failures or cyberattacks occur.

2

Mobile

Keep in contact with important clients, colleagues and suppliers with our business mobile solutions. As the UK's largest independent mobile provider, we've got a wide range of tariffs from O2 and Vodafone and can tailor our mobile plans to suit your business.

5

Connectivity

Full-fibre Ethernet is the pinnacle of connectivity but we've got connectivity options for every budget and every business. Whether you want a business broadband solution or want the best in class, check out our connectivity tool and see what works for you.

3

Hosted VoIP

The key to hybrid working is the ability to work from anywhere and, with Daisy Hosted Voice (DHV) you'll never miss a call. Seamlessly switch from your desk phone to mobiles and back again and take your important calls from wherever you might be working from.

4

Microsoft

Almost everyone has used elements of Microsoft 365 in their lives but make sure you maximise your business' potential by utilising every aspect of it. Check out Microsoft Teams - Direct Routing too for cost-effective calls and easy to manage collaboration.

The world today looks very different and the way in which we're working is also in stark contrast to a few years ago. However, in order to adapt to hybrid working, there's some things businesses need to be considering to ensure you collaborate, communicate and connect.

Our step-by-step roadmap highlights the key solutions that can help your business get ahead of the curve and extract the most out of hybrid working.

Find out how your business can adapt to hybrid working by calling our specialists on 03330 602 007 or visiting daisycomms.co.uk
