Galaxy S25 | S25 Ultra
Enterprise Edition

Reclaim your focus

Discover the super-powered AI phone —here to help businesses reclaim focus.
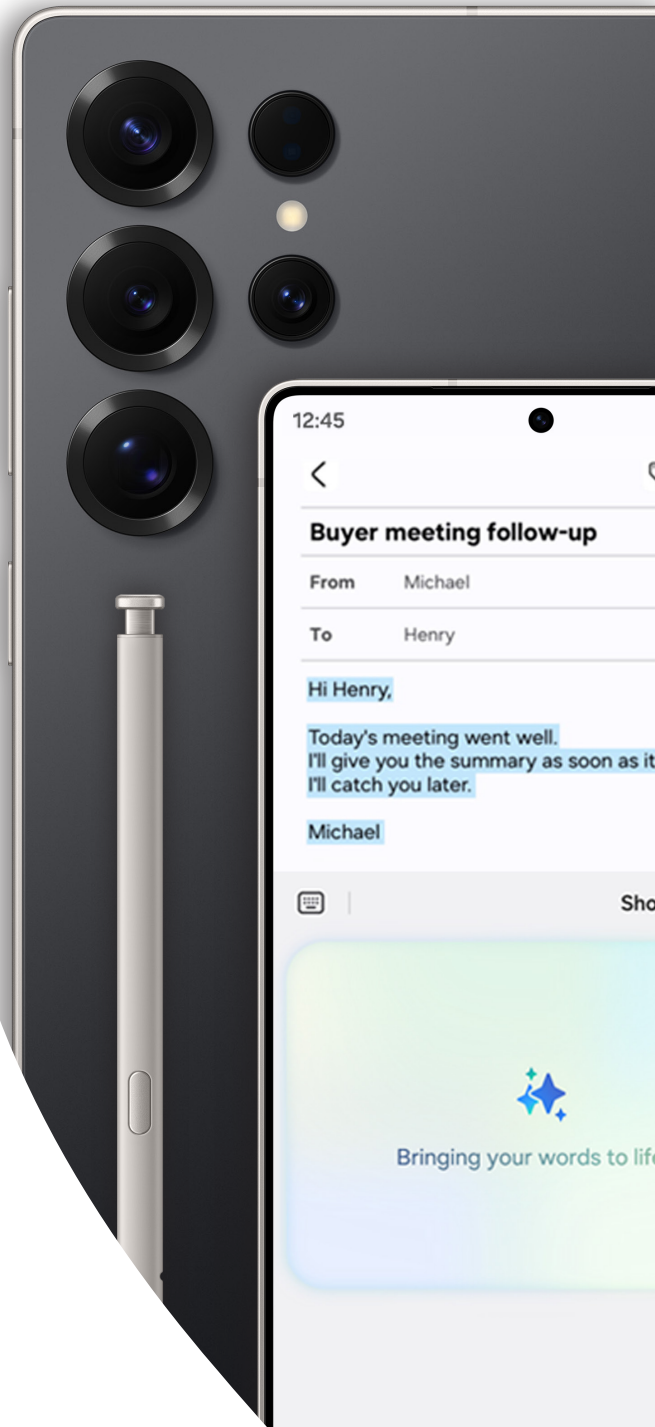

Empower your people to take control of their workday with the Samsung Galaxy S25 and Galaxy S25 Ultra Enterprise Edition. Cutting-edge conversational AI puts you and your team back in the driver's seat, saving you time and energy to focus on the big picture while Galaxy AI[1] handles the rest.

The Galaxy S25 Enterprise Edition Series seamlessly integrates the power of AI, turning smartphones into true productivity partners. These devices don't just help future proof businesses—they could help transform how we all approach work.

And when you need thorough answers fast, you can rely on Galaxy S25 and Galaxy S25 Ultra Enterprise Edition's advanced conversational search capabilities to find just what you're looking for. You can also find out more about anything you see on your screen with Multimodal Search and have the device solve those problems that are stumping you in real life. From equations to instructions, just snap a photo and the device can work through each step automatically and with easy-to-understand guidance.

Let the Galaxy S25 Enterprise Edition Series handle the everyday, so you can dedicate your energy to driving growth, building relationships and innovating.

Enhance your focus and unlock your full potential with the new Samsung Galaxy S25 and Galaxy S25 Ultra Enterprise Edition for business, powered by Galaxy AI.

Buyer meeting follow-up

From   Michael

To   Henry

Hi Henry,

Today's meeting went well.
I'll give you the summary as soon as it
I'll catch you later.

Michael

Bringing your words to lif

1. Samsung account login is required for certain AI features.

Support wherever and whenever work takes you

Work from your phone with greater peace of mind with Enterprise Edition support.

With Enterprise Edition you get 3 years of Enhanced Support, which includes next business-day doorstep exchange[2]. So, if something goes wrong, we're on hand to get you back up and running. We'll help you set up devices with Knox Quickstart Go. And with Knox Manage, your IT teams can remotely access devices to troubleshoot issues. And with Knox Suite-Enterprise Plan they can even monitor battery and app usage with Knox Asset Intelligence. Plus, with up to 7 years of security and maintenance releases[3] and 7 generations of OS updates, your devices will stay up to date and protected.

You're always in control

Take full advantage of Galaxy AI without worrying about losing control of your data.

Stay in control of your data and fully focussed on your goals. The Galaxy S25 and Galaxy S25 Ultra Enterprise Edition's impressive AI tools can be processed on the device itself, meaning that even companies with strict data policies and compliance requirements could benefit.

Enterprise Edition

Manage a whole fleet of AI devices

Deliver AI power to everyone in your team without exposing your business.

Give everyone on your team a personal productivity partner, while ensuring they're never used for the wrong purpose. You can now fine-tune AI options via mobile device management—toggling cloud-based AI processing on or off remotely for a single device or a whole fleet. IT managers can easily limit or block access to certain cloud features through the Knox AI Plug-in, across the entire device fleet. Experience AI-powered productivity in total privacy.

Your most useful apps, made better together

Your wish is the Galaxy S25 and Galaxy S25 Ultra's command. Achieve more, faster than ever, with just a voice or text prompt.

Make light work of complex tasks with one simple voice command or text prompt. The Galaxy S25 Enterprise Edition Series can complete multiple actions in a row to help you get everyday jobs done and remain focused on the big picture. Simply press down the side button to activate and your device will complete seamless actions across apps[4] to find relevant information and send it where it needs to go. It can even summarise YouTube videos and save it as text in Samsung notes. Now that's efficiency.

Never miss a detail again

Walk and talk with confidence, knowing you won't miss a detail from your calls.

Take your conversations on the go while remaining focused on the details. Your device can record, summarise, transcribe and translate key information from your business calls. And with an intuitive key word search, you can refer back to key topics whenever you need. Misheard a date? Not sure what they meant a few minutes ago? Just check with Call Transcript & Recording.
